EMPLOYEE OWNED

PERFORMA®
ECO BLAZER

WASHING

- ✓ 40 degrees or less
- ✓ Can be dry cleaned
- × Do not use fabric conditioner
- × Do not bleach

Designed to withstand the rigours of school life, Performa® Eco blazers are machine washable at an environmentally-friendly 30 degrees using non-biological or colour care detergent. You can also dry clean your Performa® Eco blazer.

Do not use fabric conditioner.

DRYING

- ✓ Air dry only
- × Do not wring
- × Do not tumble dry

We advise you to air dry your Performa® Eco blazer. To avoid creasing, remove from the machine as soon as possible. Do not put your Performa® Eco blazer on a radiator to dry, as this will mark or heat damage them.

IRONING

- ✓ Cool iron only
- × Do not steam iron

If you iron your garment, use a cool iron setting. Ironing on a high setting can melt the fibres and create a shiny appearance on the fabric surface. Steaming may also affect the internal components of the garment resulting in the appearance and fit being affected.
